9. Report of the Health and Breeding Committee

Function	Health and Breeding Chairman
Name	Type Greibrokk, NO
Topic	Comments + Information
Information Exchange	<p>it is viable that the WAFDAL secretary is collecting and summarizing the information and re-distribute</p> <p>there is only few information on litters</p> <p>Dalmatian Club of Switzerland is the only club who sends information and documents to WAFDAL</p>
ARDS	Topic is closed per now. There were no new cases reported during the last years. The implemented measures and activities were successful.
ISD	<p>(information by Mrs. Ursula Voitle, Austria)</p> <p>ISD can be stated at a variety of breeds seen at the dog shows</p> <p>If owners are asked for details, they most likely react rather surprised as they didn't notice it</p> <p>Switzerland: there is a veterinarian in Switzerland who looks deeper at the ISD phenomenon. Non closing pupils are not always ISD. There are dogs that have an issue with the non closing of the pupils, but some do not. Both cases are existing. Case numbers are too low at present to make final conclusions. Dogs with ISD are not approved for breeding in Switzerland.</p>

10. Report of the Judging Committee

Function	Vice Chairman
Name	Liliane de Ridder
<p>Key problem is the old not state-of-the-art website. List of judges is not kept on current status.</p> <p>Judges on the list should use the possibility of exchange with each other.</p> <p>Another key issue is the new standard.</p> <p>No other major activities from the judging committee.</p> <p>With regards to the world dog show in Helsinki 2014: it must be stated that there were a lot of high quality Dalmatians presented which gives a positive outlook for the future.</p> <p>The original report is attached.</p>	

11. Report on Website Topics

Function	---
Name	Rhys Morgans
<p>There are problems with the old web system existing – updates are not available.</p> <ul style="list-style-type: none"> - Proposal from Michael Jäger: Andrea Theuerkauf Höppner could create a new website/homepage for WAFDAL. Mr. Jägers asks for permission to contact Elke Langanke to request her support and given commitments. - Proposal Radana Zachova: new website could be created via Wordpress – which allows easy use and website management - Comment Thomas Höppner: Mr. Höppner states that his wife offers as mentioned her support for the creation of a new website. - Comment Rhys: in general more support for website work is needed. Cooperation with Andreas Theuerkauf Höppner is possible and would allow to judge what could be done and what is not possible - Comment Charlotte Jenwall: as many things are needed to be done for website, a workflow with mini workshop meetings in Europe between the respective persons might be helpful. Topics and work could be divided by major subjects. Information should be given in English and German on the website - Comment Luice Hagman: More club info, as well as meetings on breeder days, workshops etc. should be provided on WAFDAL website. Scandinavian countries very foregoing on variety of activities – eg. Judges are even paid the hotel. More information exchange on WAFDAL website could be helpful. 	

12. Future of WAFDAL/ WAFDAL-FCI-HKS Agreement

Name	Tyge Greibrokk
<p>Tyge Greibrokk reports about disagreements regarding the new standard. There are various topics which can be interpreted in different ways.</p> <p>It is agreed to stay open minded towards the new standard, Tyge Greibrokk agrees to continue with WAFDAL for the next 2 years</p>

15. Planned future activities (2015 – 2017 - 2019)

Proposal for date and place of future WAFDAL meetings

- WAFDAL 2017: German Club CDF will be the organizer of the 2017 meeting. Comment Mr. Höppner: as the organizing of the WAFDAL 2017 meeting has been accepted on short notice by CDF a final date and place for the meeting cannot be detailed per now. More information will follow. However it is planned to have the WAFDAL meeting on a Friday, CACIB show on the following Saturday and WAFDAL show on Sunday
- WAFDAL 2019: potential candidate for organizing 2019 meeting will be Charlotte Jenwall and Danish Dalmatian Club

16. Other Topics and Questions

- Ludmilla Fintorova: Information etc. which is adressed to Hungary should go to L.Fintorova for translation before sent out
- Non paying members will be kept and informed, they remain on the list
- Michael Jäger: proposes to invite the 4th German Dalmatian Club to WAFDAL, will done via Mr. Fiedler (chairman)
- Homepage www.mopsclub.de is an interesting example for future WAFDAL website
- Nenad Devic emphasizes that there are very little clubs in Serbia and Croatia, but if helpful they should remain with WAFDAL
- Nordic countries are easier to involve and manage, as well data wise – eg Sweden has very nice data base with over 3.000 litters registered. Documentation of litters in Nordic countries is very good benchmark example
- Handover and transfer of data is a problem as pedigree credentials are created by different clubs
- Josef Fertig remarks that 20 participants at WAFDAL meeting is very encouraging, and has not been expected prior to the meeting
- Many thanks as well to Liliane de Ridder for her work and commitment which she dedicated to WAFDAL
- Following the meeting, a very interesting presentation was made on a “working Dalmatian” in Czech Republic. The CD with info about this very special kind of working dog was provided as a present to the participants. Many thanks for this great insight and information.

WAFDAL

World Association For Dalmatians

Topic	Comments + Information
Audiometry	<p>Charlotte Jenkwall (Denmark) reports about 2 veterinarians who measure audiometry with different methods. One with anesthesia, one without. Better hearing curves result from the method with anesthesia.</p> <p>Ursula Voitle (Austria) reports that the transport way of 500km or more is not easy feasible with puppies, therefore the veterinarian is flown in from Vienna to Lake of Constance to do the audiometry locally with the puppies.</p> <p>Audiometry availability is equally an issue in Czech Republic, it was only doable in Austria and demanded travel from the breeders. Now, there are 5 places to do it in Czech Republic.</p>
Pigment	<p>Tyge Greibrokk is supporting the few that well pigmented dogs are better for breeding</p>
Patches	<p>Radana Zachova (CZ) reports about the breeding with patched dogs. It is allowed in several clubs. Following the new standard the breeding with patched dogs is not allowed anymore</p>
Kidney Issues	<p>Tyge Greibook reports about an email received: a litter with 2+2 with kidney problems. Parvovirus might have played here a role as well</p>
OCD	<p>Margot Nemecek (Austria) underlines a new problem: OCD, ED and block vertebra. It is occurs often with Rhodesian Ridgebacks but can occur as well with Dalmatians and Labrador Retrievers, as new cases show. It cannot be diagnosed at puppy hood.</p>
Hypotheyroidism	<p>Dogs often change their behavior and character, coat often changes into bad condition. Can be treated quite successfully with the right pharmaceuticals.</p>
Planned Actions	<ul style="list-style-type: none">- Future Information Gathering: Charlotte Jenkwall will set up a format which allows to collect information in condensed and detailed manner on health and other issues.
